

# 2011

## SHORT COURSES

## UNDERSTANDING THE ANATOMY AND PHYSIOLOGY OF DOGS

Relate Anatomical and Physiological features to the care and treatment of Canines

This course can be completed by Distance Learning - WORLDWIDE!  
This course is designed to give students a practical approach to canine anatomy and physiology in relation to work, health and movement.

Participants in existing courses in complimentary therapies will find that this course compliments their studies. The course is designed to increase participants understanding, knowledge and awareness when working with dogs.

### Course Structure:

Courseware is presented online with assessment workbooks and regular contact with your teacher via phone, email & internet. (There may also be online classes and recordings available depending on availability.)

### Competency Unit:

RGRPSG 401A – Relate Anatomical and Physiological features to the care and treatment of Greyhound.

Follow us  
@NEI\_TAFE

### Course Delivery:

Up to 6 months
